

Your leading partner
for baby food and nutrition

Pronuben® is a **European laboratory specialized in infant nutrition**, dedicated to the development, manufacturing, and export of formulas designed to meet the nutritional needs of babies and young children.

With a presence in more than **15 countries**, we offer **competitive, safe and compliant solutions** tailored to the specific regulations of each market.

All our formulas are produced in **Europe** –primarily in **Spain and France**– through advanced manufacturing processes, meeting the **requirements of each destination country** (Halal, GSO, Codex Alimentarius, among others) and **the strict quality standards of the European Union**.

Our commitment is focused on **quality, safety, and traceability** at every stage of the process from the selection of raw materials to the final product ensuring maximum confidence in infant nutrition.

“Pronuben® – Reliable nutrition, healthy growth”

FLEXIBILITY

RESPONSIBILITY

RELIABILITY

FLEXIBILITY: In a constantly changing global environment, at **Pronuben®** we understand the importance of adapting to new trends and the evolving needs of our partners and clients.

Our goal is to facilitate the distribution and marketing of our products by offering **maximum flexibility** in every project, ensuring efficient and customized solutions.

RESPONSIBILITY: Our products are intended for **babies**, the most delicate and vulnerable people on the planet.

For this reason, our **R&D department** works continuously on the **research and improvement of our formulas**, incorporating the latest scientific advancements to provide modern, safe, and nutritionally balanced products.

RELIABILITY: Our **global project development team** provides professional support in import and export operations, as well as in the implementation of products across different markets.

We accompany our distributors through every phase of the project, offering **tailored solutions, complete documentation, and continuous support** that ensures a **solid and long-term partnership**.

Advance

Regular formulas

Pronuben Baby Advance formulas provide an optimal balance of **proteins, carbohydrates, and fats**, combined with **essential vitamins and minerals**.

They ensure **safe, modern nutrition** adapted to each stage of the baby's growth and developed in accordance with the **latest international standards**.

Special formulas

LINOLEIC
ACID

A-LINOLENIC
ACID

Pronuben Baby® Special Formulas are designed to address **specific nutritional needs** such as lactose intolerance, reflux, colic, or digestive discomfort. They are formulated according to the **therapeutic indication**, using **lactose-free bases, locust bean gum, starch, and hydrolyzed protein**, together with **nucleotides, vitamins, minerals**, and other key nutrients, ensuring **maximum safety, tolerance, and efficacy**.

Nutrition tailored for babies with greater sensitivity or special digestive requirements.

Lactose Free (0 -12 months)

Anti reflux (0 -12 months)

Anti colic (0 -12 months)

Comfort (0 -12 months)

Legislation and regulatory compliance

Pronuben Baby® formulas are developed in accordance with the **guidelines of the Codex Alimentarius** or the **European regulations** applicable to infant nutrition.

They can also be **adapted to the local requirements** of each country, while always maintaining the **European food safety, quality, and traceability protocols** that define our production standards.

Halal Certification

Pronuben Baby® formulas are **Halal-certified**, ensuring that their composition, manufacturing process, and supply chain comply with the **requirements established by the relevant Islamic authorities**.

Start working with us

Alliance with our importing partner.

Establishing a strong alliance with our importing partners is essential to ensure **stability and long-term success** in an increasingly competitive global market. Effective collaboration and a **mutually beneficial relationship** are key to delivering **high-quality products** to destination markets and achieving **sustainable business growth**.

Rigorous study of the destination market and its regulations.

We conduct a **comprehensive assessment** of the destination market and its regulatory framework to evaluate each project's feasibility. The **safety and quality** of our products are our highest priorities, ensuring **full compliance with applicable standards and regulations** to safeguard the health and well-being of infants and young children.

Adaptation of product.

Driven by our commitment to providing **high-quality infant nutrition**, we meticulously adjust each formula's technical composition in full compliance with local regulations.

We also adapt the **product presentation and label design** to meet the specific requirements and preferences of each market, ensuring that our products are **visually appealing** and meet the highest standards of safety, nutrition, and quality.

Pronuben support.

At **Pronuben®**, we take pride in offering **exceptional support and personalized attention** to all our partners. From the moment our products are launched in the market, our team remains readily available to assist local partners with any operational, technical, or marketing needs. We actively collaborate in the **development of new products**, provide **technical and brand support**, and work to build a strong foundation for long-term partnerships.

Pronuben: European guarantee in infant nutrition

At **Pronuben®**, we understand that babies are the most precious beings in our lives, and therefore we consider their nutrition a fundamental responsibility.

Our commitment is to provide **high-quality infant nutrition products** designed to meet the nutritional needs of infants and young children. All our formulas are manufactured in **certified European facilities**, operating under the **strictest quality controls** and in accordance with international food safety protocols.

We use only **safe and carefully selected ingredients**, monitoring every stage of the production process to ensure the **highest levels of safety, purity, and traceability**.

Our commitment to quality is reflected at every stage of production — from the selection of raw materials to manufacturing, packaging, and final inspection.

The facilities where **Pronuben®** products are manufactured apply **advanced technology** and strictly comply with **European hygiene and food control standards**.

Aware of the importance of proper nutrition in a baby's development, we work closely with **experts in pediatrics and nutrition** to ensure that each formula meets the specific needs of every growth stage.

We take great pride in offering **excellent infant nutrition** and earning the **trust of thousands of families worldwide**.
